

KIDS and IDENTITY THEFT!

IDENTITY THEFT is America's #1 fastest growing white-collar crime!
Our children may be more susceptible than anyone else!

WHY?

- ❖ Children are issued a Social Security Number when they are born!
- ❖ Children do not usually use their Social Security Number until they apply for their first job about age 16 or apply for college.

HOW?

- ❖ Online firms use available data to find random Social Security numbers.
- ❖ Then they run those numbers through public databases to find out if they ever applied for credit.
- ❖ If not, they are offered for sale as CPN's - Credit Privacy Numbers!
- ❖ Then other people open a new clean line of credit with them.

WHAT CAN YOU DO?

- ❖ Have your child's credit monitored on a continuous basis.
- ❖ Have a system in place if their Social Security number is stolen.

WE CAN HELP!

- ❖ We offer continuous monitoring of their non-public information.
- ❖ We have a Toll Free number you can call for help!
- ❖ Sign up today for Identity Theft Protection for you and your family for pennies a day!
